EXAMINER'S COMMENT

This Office Action is responsive to the applicants' amendment filed on April 28, 2004.

Claims 1-5, 7 and 8 have been amended. Overall, claims 1-8 are pending in this application. Applicants' cooperation in correcting the informalities in the drawing and specification are appreciated.

Allowable Subject Matter

Claims 1-8 are allowed.

The following is an examiner's statement of reasons for allowance:

Regarding claims 1 and 7: the prior art fails to disclose or render obvious the claimed combination including: a capacity control including two distinct valve: a first and second valves, when a pressure differential between a more compressed refrigerant and a less compressed refrigerant is below a first predetermined amount, the second valve moving to a low capacity condition and the first valve moving to a low capacity condition when a suction pressure is above second predetermined amount such that low capacity operation only occurs when the pressure differential is below the first predetermined amount and the suction pressure is above the second predetermined amount.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
